Note: Nutrient contributions from individual components may not equal the total due to federal rounding regulations. Percent Daily Values (DV) and RDIs are based on unrounded values.

This list has been generated by McDonalds.com and is effective 12-19-2014.

- * Contains less than 2% of the Daily Value of these nutrients
- † Available at participating McDonald's
- + Based on the weight before cooking 4 oz. (113.4g)
- ++ Based on the weight before cooking 8 oz. (226.8g)

§ The values represent the sodium derived from ingredients plus water. Sodium content of the water is based on the value listed for municipal water in the USDA National Nutrient Database. The actual amount of sodium may be higher or lower depending upon the sodium content of the water where the beverage is dispensed.

The nutrition information on this website is derived from testing conducted in accredited laboratories, published resources, or from information provided from McDonald's suppliers. The nutrition information is based on standard product formulations and serving sizes (including ice for beverages). All nutrition information is based on average values for ingredients from McDonald's suppliers throughout the U.S. and is rounded to meet current US FDA NLEA guidelines. Variation in serving sizes, preparation techniques, product testing and sources of supply, as well as regional and seasonal differences may affect the nutrition values for each product. In addition, product formulations change periodically. You should expect some variation in the nutrient content of the products purchased in our restaurants. McDonalds USA does not certify or claim any of its US menu items as Halal, Kosher or meeting any other religious requirements. We do not promote any of our US menu items as vegetarian, vegan or gluten-free. This information is correct as of March 2014, unless stated otherwise.
